Subject: RE: Wire Transfer Issue

To: <mustan.ali@gmail.com>

Mustansir,

I reached out to our wire department and they were not able to find anything based on the info you sent. They will need the MIR or message input number. It is usually at least 26 digits long and include numbers and letters. The recommendation is to go back to the sender to trace through their bank to find out what's going on.

It may have been returned for some reason, such as missing information, or requesting additional information. But the sender's bank would have more information on that.

All the best,
